

7y54_A · 100 residues

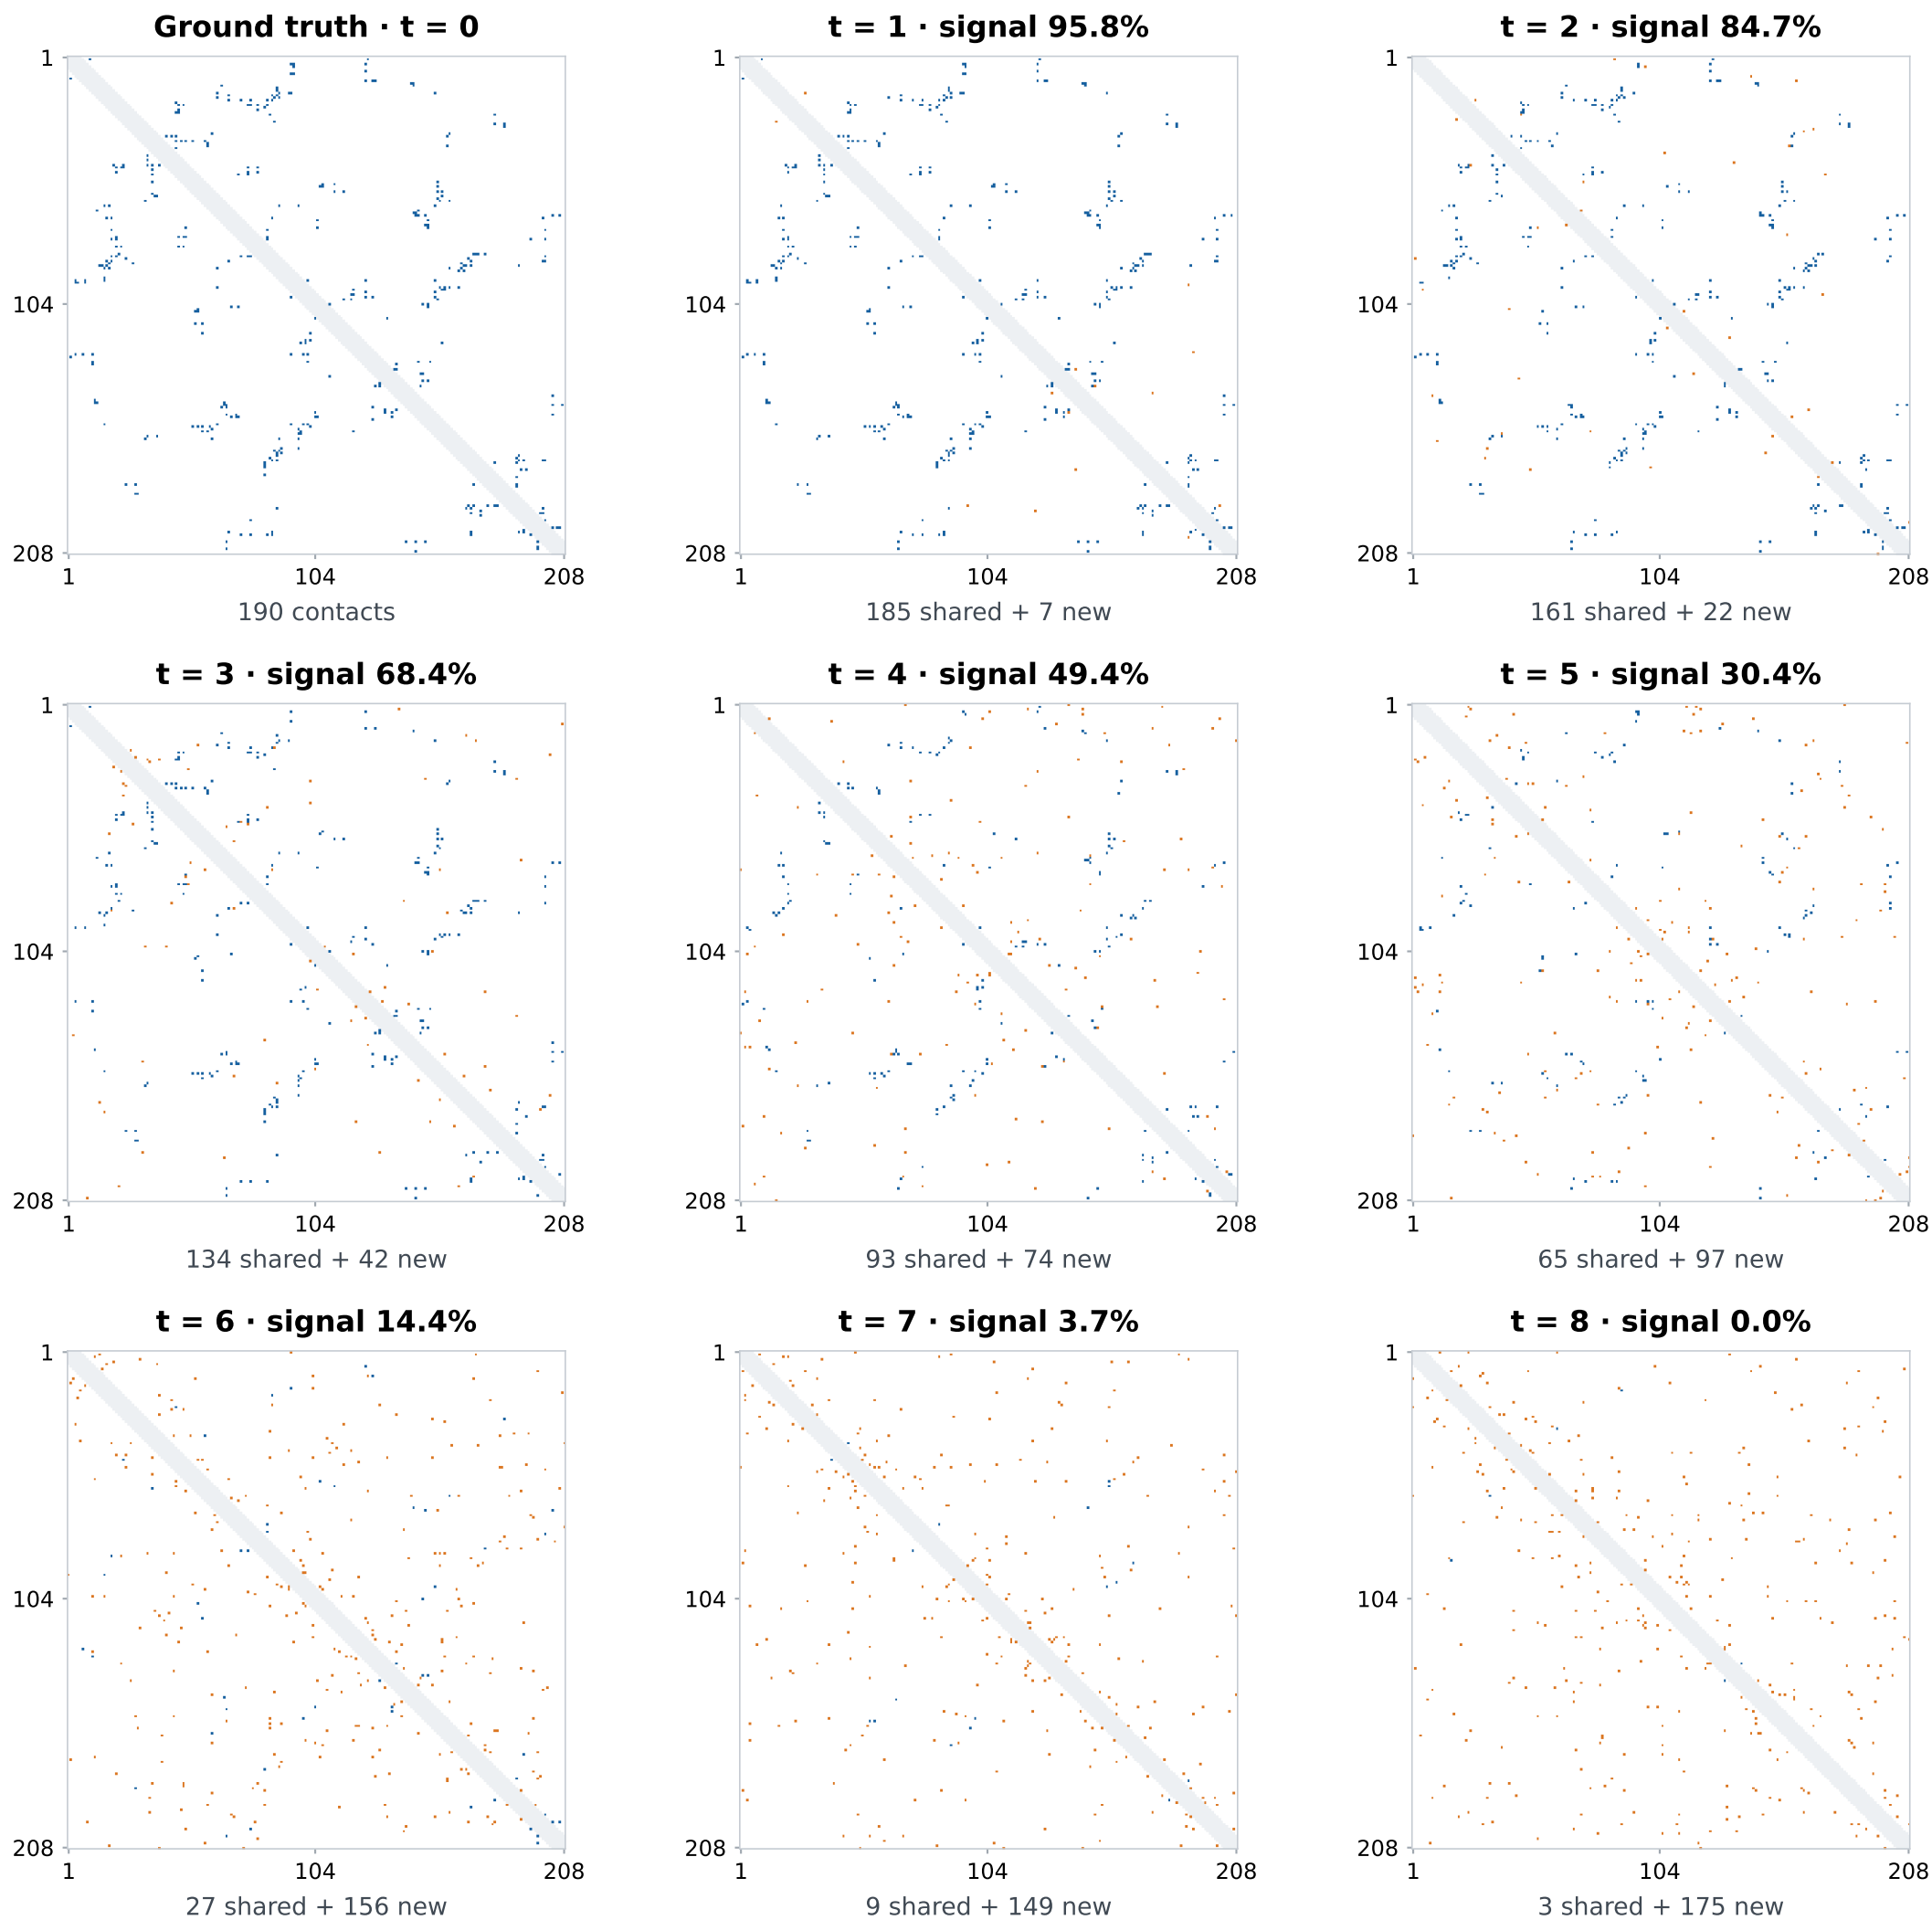

Ground truth and the eight training noise levels

Independent draw at each level · “signal” is the original-map weight, not the fraction of contacts remaining.
 Axes: residue positions (1-based). Contacts counted once per pair. Excluded: separation < 6 or unresolved residues.

8baq_A · 208 residues

Ground truth and the eight training noise levels

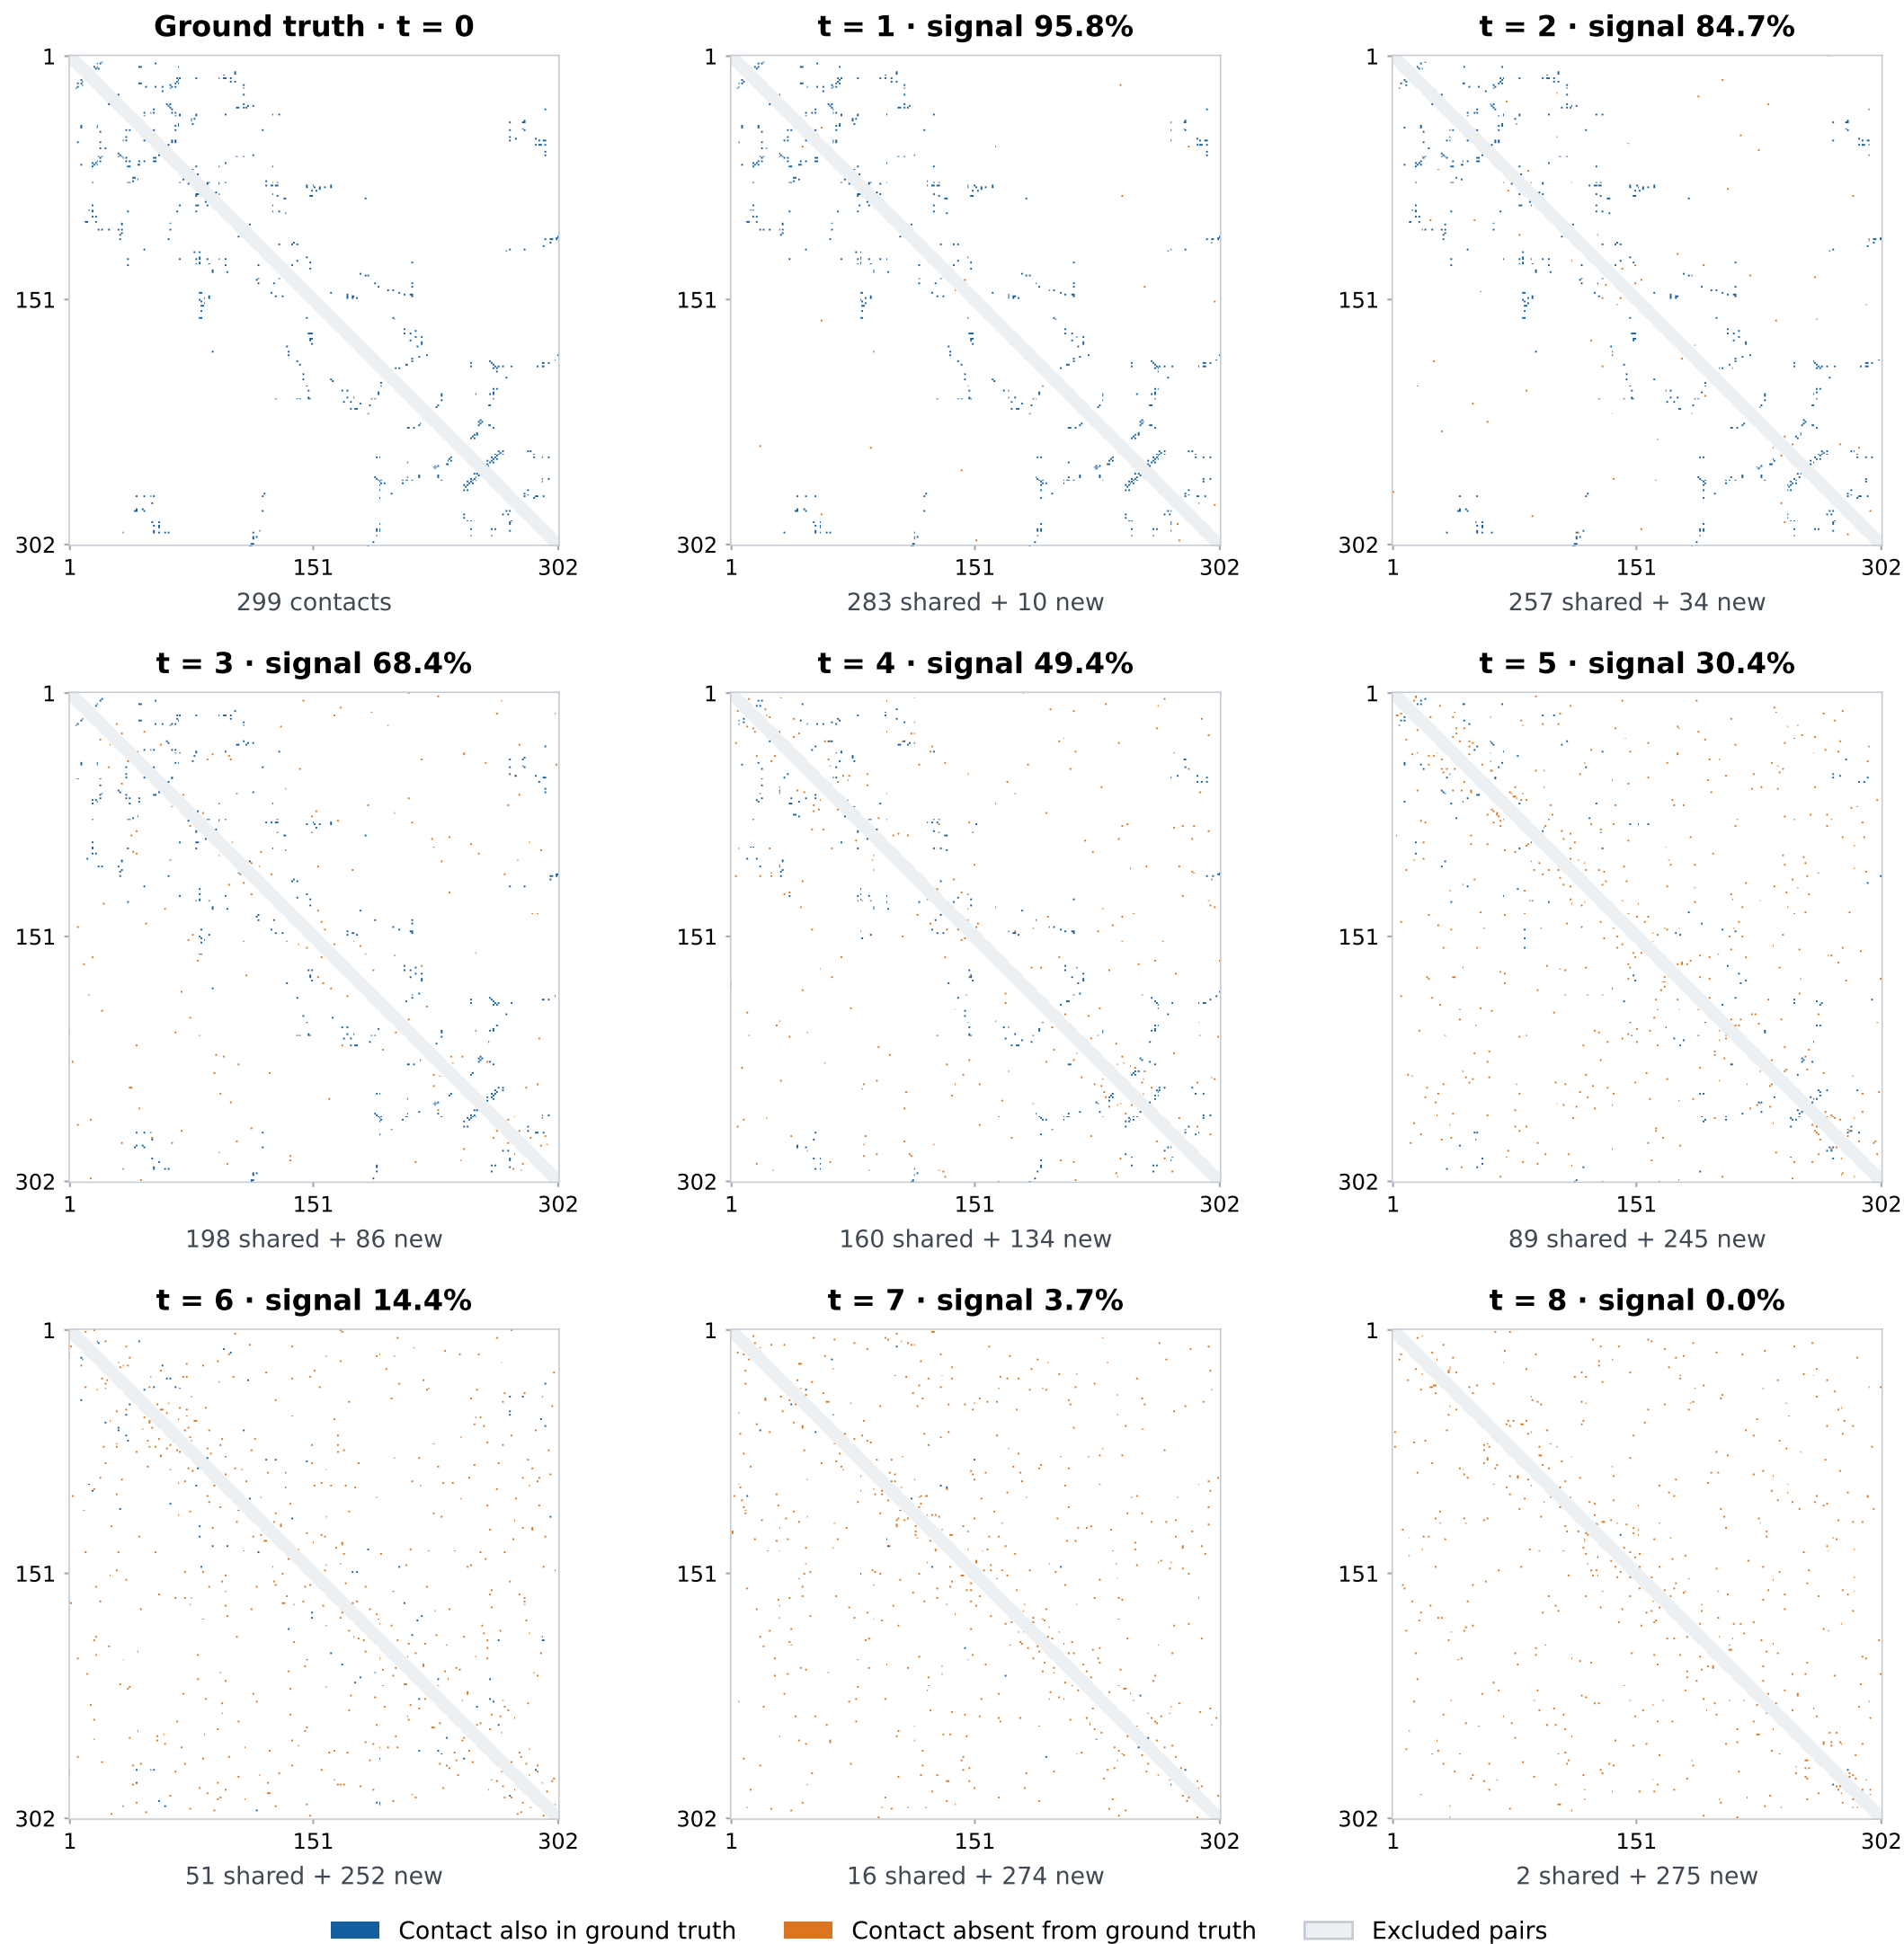

■ Contact also in ground truth ■ Contact absent from ground truth ■ Excluded pairs

Independent draw at each level · “signal” is the original-map weight, not the fraction of contacts remaining.
 Axes: residue positions (1-based). Contacts counted once per pair. Excluded: separation < 6 or unresolved residues.

8daj_A · 302 residues

Ground truth and the eight training noise levels

Independent draw at each level · “signal” is the original-map weight, not the fraction of contacts remaining.
 Axes: residue positions (1-based). Contacts counted once per pair. Excluded: separation < 6 or unresolved residues.
